

# A1 & G2 Series Application Sheet

Company Type: **Water Supply**  
Market: **Water Supply/Irrigation**  
Application Category: **Blending**  
Model Number: **A109GMN100NA1 and G2S20N09GMB**

## ADVANTAGES OF USING FLOMEC® METERS

- COST SAVINGS
- ACCURACY
- DIGITAL READOUT
- COMPACT SIZE

### APPLICATION:

The company used a blend of water and corn syrup in water wells to accumulate bacteria in contaminated water. Both the water and corn syrup volume needed to be accurately metered. Using this blending system, the water was purified in an efficient and economical method.

### PROBLEM:

Water wells and or water tables were contaminated by a variety of chemicals. A mixture of corn syrup and water was introduced into the system to remediate the water. An economical metering device was needed as part of the remedy.

### SOLUTION:

The solution required multiple meters used for both water and corn syrup fluids. The rugged G2 was installed on the water main. The A1 meters worked great with the water and corn syrup mixture. In both cases the FLOMEC meters were accurate, compact and economical.
